

# Omineca Guide & Outfitters

Canada Moose, Black Bear and Grizzly Hunting in North Central, British Columbia, Canada

## Omineca Hunt Report Spring 2011

Last-Minute Dean comes through again. In May 2005 Dean from California hunted with us and took a monster Black Bear on the last day. In September 2010 Dean seemed determined to wait until last-light on the last night of the hunt to kill his 47.5 inch Bull Moose.

We had a heckuva 2010, some wild adventures with great hunters and we saw plenty of game. We guided new hunters and some old friends returned. A few times, finding "the luck" was a bit tough but the successes were very satisfying. A swell time was had by all. We're gearing up for 2011. Hope to see you up here sometime soon. regards, Frank

For Marc from Berlin, a perfect morning produced a perfect bull.

## Our 2010 Season

### 2010 Total Game Sightings

Black Bear - 110

Moose - 95

plus Grizzly, Wolf, Deer, Coyote, Lynx,  
and lots of Grouse and Hare

Helge-Mari from Norway, stalked and killed her spring Black Bear with video cameras rolling.
