

Omineca Guide & Outfitters

Canada Moose, Black Bear and Wolf Hunting in North Central, British Columbia, Canada

Women on the Hunt

Your humble editor and outfitter fell out of the routine of annual newsletters during the Covid years. So this newsletter is a bit of a catching-up of mostly moose hunting in the 2020's. To start off this trophy gallery, it's ladies first! **We've had quite a few female hunters in recent years. As a rule, women hunt hard, are always positive, enjoy the hunt and shoot really good.**

1) Paula, wife of our good buddy Matt from Bellingham came along for a spring hunt in 2023 and took this good boar.

2) Pam from MT killed her bull with one shot and was about the happiest hunter I've ever guided. Pam is pictured here with me Frank, your humble outfitter **3)** This nice boar was Britney's second Omineca bear.

Fine Young Bulls

Most of the bulls our hunters take moose that are in that 3 to 6 year age range. Nice trophies and perfect meat bulls. 1) Jerry from NM pictured here with guide Mike who called this bull out into shooting range. 2) This bull also came to the call but was sneaking in behind us. Luckily Glen from CA was set up to watch our backs and killed him at about 270 yards. 3) Matt from WA has taken 6 bears with us over the years but 2024 was his first moose hunt.

Omineca Trophy Gallery

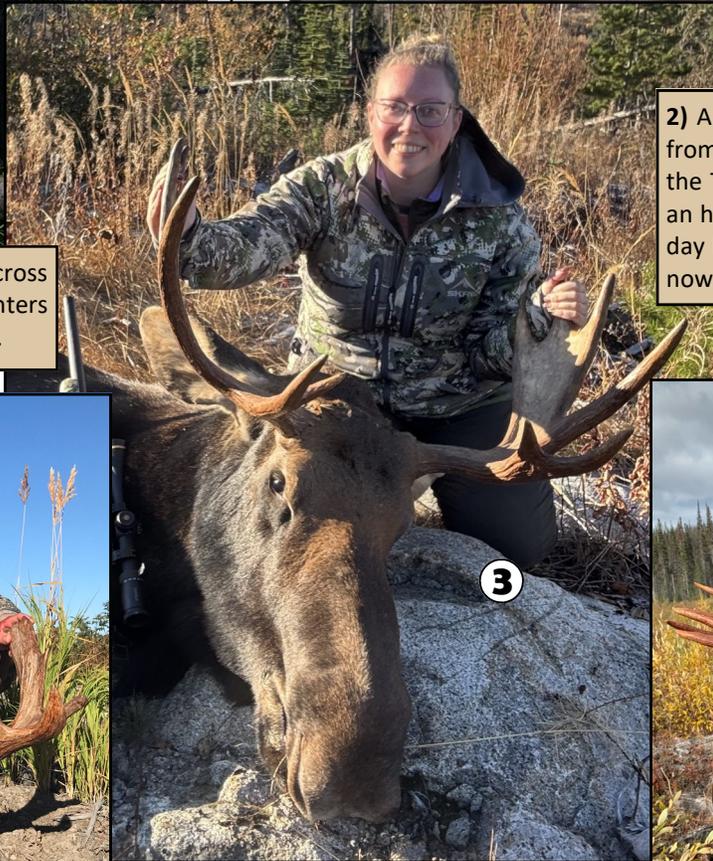

1

1) Fred from Wenatchee, just across the line was one of our first hunters after the border re-opened in 2021.

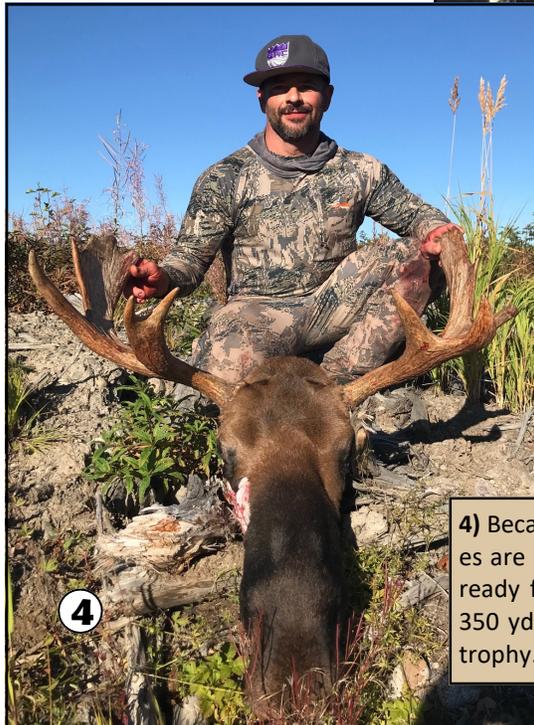

2

2) A gnarly bull and his happy hunter Jim from CA. Jim's bull came to the call up in the Tommy area, although it took about an hour. 3) Erica from BC took this mid-day bull in a relatively new area and that now because of her is called "Erica".

3

4

4) Because we call in most of our bulls, shot distances are usually mid-range. Luckily Mike from ID came ready for long range as he killed his bull at around 350 yds. 5) Dan from KS insisted on packing his own trophy. A better pic of his bull is on the next page.

1) Matt and his father-in-law Dan (2) came to Omineca from Kansas on their first BC moose hunt. We had a great time and the boys drove home with a pickup full of moose.

Wouldn't you know it. Our biggest bull in the last few years got himself killed by Masterguide Wes (1). This end of the season hunt was supposed to be for a meat bull. Way to go, Wes.

2) Troy from Utah, drove a long way for a 2025 one-on-one moose hunt. We had fun and hunted hard for 7 days. Then at about 10:30am, this young bull came to the last call of the morning into a big opening. Troy killed him good at 250 yds and got the bull to lay down about 20 yds from a skid trail that we could drive the truck right up to. Happy Days.

So, it's that time of year and we're getting ready the 2026 Spring Bear Season. In anticipation, here's Rene (3) from Denmark with his second bear from our 2025 Spring Season. We're looking forward to the end of winter and getting back out in the bush. Happy Hunting, y'all!
